Gentlemen:

On March 25, 1993, a meeting was held between the Rocky Flats Office (RFO), and your staff to status the progress of the Phase I RCRA Facility Investigation/Remedial Investigation (RFI/RI) for Operable Unit 6 (OU 6), Walnut Creek Priority Drainage, Rocky Flats Plant, and to discuss the Human Health Risk Assessment (HHRA).

The agenda for the meeting was to summarize the completed field operations for OU 6 and outline the HHRA process that is planned.

During the meeting, RFO also informally discussed the need for requesting an extension to the submittal dates for the Draft RFI/RI Report and the Final RFI/RI Report. At EPA's suggestion, we are notifying your agencies that a forthcoming extension request is likely. When we have a firmer timetable scheduled for the submittals, we will then submit the formal request. The original submittal dates for the Draft RFI/RI Report and the Final RFI/RI Report are respectively, August 4, 1993, and January 7, 1994.

Please contact Norma I. Castaneda at 966-4226 if you should have any questions regarding OU 6.

Sincerely,

  
James K. Hartman  
Assistant Manager for Transition  
and Environmental Restoration
